

# INDUSTRIAL TRAINING

Summer, 2021

## Training Overview

In the Summer of 2021, I took a training course in Pepcoding Education Private Limited for Web Development using ReactJs and NodeJs for learning Full-Stack Web Development.

I started my training in July, 2021 at Pepcoding which is a coding Institute near Sector 63, Noida. Here I started learning and attending classes for the course in online mode (w.r.t. covid guidelines).

## Project

In order to get a good Grasp at Web Development and technologies like ReactJs and NodeJs, I made a personal project in which I used my knowledge of course to build a web-app to design and edit PDFs

**Name: PDF Editor by Yash**

My project is an application-based project and the Basic point motivating this project is learning And Implementing knowledge I gained from the course.

## Technologies and concepts used

NodeJs	Git
ReactJs	Github
Javascript	Visual Studio Code
ExpressJs	SQL
Typescript	Zoom
HTML & CSS	CLI tools (linters)
Browser	
other NPM packages
